

Executive Biography

Billa Bhandari, Founder and Chairman of the Board

Billa Bhandari has over twenty years of experience in Senior Leadership positions. He has fifteen years of experience building business oriented, secure, scalable and mission-critical trading systems in the banking industry, including Chase, Credit Lyonnais, Putnam Investment and State Street Bank. Before GoSecure, Mr. Bhandari has founded three other companies, Akoura and Obvue which provide Information Security Solutions and Parallax Corporation which provided technology-consulting services to clients including GTE, Sun and Hewlett Packard. His background in Finance and Technology exploited the need for user oriented yet highly secure information solutions. Mr. Bhandari has strong recognition in the International Biometrics community and serves on the Technology Board of ID World, and Advisory Board of My Data Vault. He has appeared on many industry panels focused on deployment of Biometrics in the Enterprise and brings vision and business development skills to GoSecure

Joerg Refeld, Co-Founder and Chief Executive Officer

Joerg Refeld brings over twenty years experience in leadership positions in Senior Management, business development, and consulting to the team. He was instrumental in the launch of companies like T-Mobile, O2, and first-e Internet bank. His functional experience ranges from the management of large software development projects via product management and marketing to heading a two-hundred and fifty person strong operational team for customer management. Mr. Refeld's background allows him to develop a conclusive business concept with a detailed financial model as well as the ability to secure necessary funding. He brings operational excellence to GoSecure by swiftly transforming the strategy into a world class operation in a cost effective manner.
